

3	Monday	Tuesday	Wednesday	Thursday	Friday		
8:00							
8:15							
8:30							
8:45							
9:00							
9:15							
9:30	Electrothermal Processing¹ Lecture starts on October, 23th Baake 09:30 - 11:00 106 (1216)	Power Electronics Lecture starts on October, 10th Mertens 09:00 - 10:30 H121 (1101)	Electrical Energy Storage Lecture starts on October, 11th Bensmann 08:15 - 09:45 A247 (3403)				
9:45							
10:00					Tutorial: Electrical Energy Storage starts on October, 11th 10:00 - 10:45, A247 (3403)		
10:15							
10:30							
10:45							
11:00							
11:15	Tutorial: Electrothermal Processing starts on October, 23th 11:15 - 12:00, 106 (1216)	Tutorial: Power Electronics starts on October, 10th 10:45 - 11:30, H121 (1101)	Project: Electrical Energy Storage starts on October, 11th 10:45 - 11:30, A247 (3403)				
11:30							
11:45							
12:00							
12:15							
12:30							
12:45							
13:00	Electrical Machines and Drives Lecture starts on October, 16th Ponick 13:00 - 14:30 H121 (1101)		Electrical Machines for eAutomotive Traction Applications Lecture starts on October, 11th Dotz 13:00 - 17:00, every two weeks H121 (1101)	Sustainable Combustion Lecture starts on October, 12th Dinkelacker 11:45 - 13:15 330 (8141)			
13:15							
13:30							
13:45							
14:00							
14:15							
14:30							
14:45	Tutorial: Electrical Machines and Drives starts on October, 13th 14:45 - 15:30, H121 (1101)	Sustainability Assessment I Lecture starts on October, 10th Endres 13:15 - 15:45 117 (8140)		Tutorial: Sustainable Combustion starts on October, 12th Dinkelacker 11:45 - 13:15, 330 (8141)			
14:55							
15:00							
15:15							
15:30							
15:45	Lab: Electrical Machines and Drives starts on October, 13th 15:45 - 16:30, H121 (1101)						
16:00							
16:15							
16:30							
16:45							
17:00							
17:15							
17:30							
17:45							
18:00							

¹Lab: Electrothermal Processing: starts on October, by arrangement, more Infos in Lecture
